TO WHOM IT MAY CONCERN

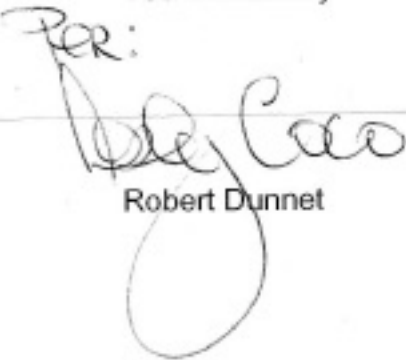

This is to confirm that John Sultana of Hillside Plumbing carried out drainage works at my Jardine Court Willoughby development commencing in 1998 and concluding in 2001. The work was carried out very effectively for the head contractor, Allarah Homes Pty Ltd.

As developer of the project and still an owner of a home in the estate, I am pleased to say that all drainage works (on a very difficult site) were carried out very effectively and over the past ten or so years since completion, we have never had a drainage problem.

Hillside Plumbing is very creative in finding solutions and I would strongly recommend Hillside Plumbing being given the opportunity to tender for both small and larger drainage projects.

Yours sincerely

Per:

Robert Dunnet
