Work Reference

Mr John Sultana

To Whom It May Concern

During the last four years I have known John Sultana through his work as a tradesperson. I have engaged him to complete extensive work in re plumbing my house and all other maintenance plumbing work at my home. I have always appreciated his workmanship. From time to time I have sought his opinion for aspects of plumbing works for projects at Castle Hill High School. The school has benefited from his expert input.

In all aspects of his work John demonstrates effective personal qualities which facilitate his interaction with a wide range of people. He demonstrates commitment to quality workmanship. John is flexible, versatile, and confident in suggesting strategies and he is also able to accept suggestions from others. He is unfailingly cheerful in all aspects of his work and I have appreciated his positive assertiveness. He gains the respect of others through personal effort, commitment, consistency and achievement. He is articulate and always willing to explain aspects of his work

I highly recommend John to others I believe that his skills, talents and commitment to excellence render him an eminently suitable person.
