TO WHOM IT MAY CONCERN

I am pleased to give this reference on behalf of Hillside Plumbing Excavation and Hire who undertook the comprehensive sewer extension and stormwater easement work at my subdivision at 4 Fern Avenue, Wahroonga, during 2006.

I found John Sultana, the proprietor, to be fair, honest, efficient and timely in carrying out his work. He listened and attended to any issues promptly and willingly.

A special quality was John's ability to skilfully handle the sensitivities and competing interests of various neighbours over the installation of the easement pipeline through neighbouring property. I distanced myself at this stage and let John handle matters, as otherwise, I certainly would have "come to blows" with the unreasonable and obsessive demands of a particular neighbour.

I would not hesitate to recommend John for any similar such work.

Yours faithfully

Stephen M H Jones
